

6 June 2018

To our valued clients,

Synergetic, as part of Education Horizons Group (EHG) is pleased to announce our new partnership with Consent2Go, a best of breed specialised platform which enables schools to plan excursions, manage compliance and maintain medical records with confidence.

We appreciate the enormity of effort invested by schools in coordinating risk management and ensuring the safety of students and staff. Following extensive evaluation, we are very confident that Consent2Go is the best specialist compliance management tool available to schools today. It is easy-to-use with an intuitive and practical workflow that saves time and effort for the entire school community

Understanding the importance of product integration, we are pleased to confirm that Consent2Go is fully integrated with Synergetic. Furthermore, the integration is currently in final certification by the Synergetic technical team as Consent2Go is a trusted partner company.

Consent2Go is already deployed in a number of our schools, where user feedback has been extremely positive.

Schools choosing Consent2Go should have absolute confidence that this partnership will have fully endorsed and supported integrations with all relevant member companies of EHG.

Synergetic's existing functionality in this space (Excursions and MyDetails) will continue to be developed and improved however we believe Consent2Go provides a premium solution for schools (particularly in the area of compliance and risk management around excursions and outdoor activities). If your school uses an alternate Excursions system, we would encourage you to review Consent2Go and compare the feature set.

In the meantime, we encourage you to visit consent2go.com.au to discover more about how this product can support your school community.

If you would like to know more about Consent2Go and our software solution, please email solutions@synergetic.net.au and one of our team will make contact with you.

Yours sincerely,

Tim Dawson
Managing Director
